Mike P!

Where do I **start**? I simply can not begin to express how vital your presence was at our wedding! You lived up to all of our expectations.. plus, plus!!! Every single one of my guest.. *even the critical ones*.. commented on how "my" DJ rocked the house!

As a Bride, I had absolutely nothing to worry about! You choreographed the night brilliantly and rolled with the last minute changes!

[How about that ceremony site change! Thank you so much for stepping in!]

I remember sitting with you and you asking me what I wanted out of the day.. and I specifically remember saying; "I do not want seat warmers!"..

That is exactly what I got! People where dancing, laughing and groovin'!

I feel compelled to tell all brides of what happens to you while planning a wedding. We unintentionally stress out!!!

Due to all the anticipation and excitement; something called "Nuptial Amnesia" happens. It's where out of the sheer adrenaline rush everything seems to be on a carousel! Believe me... you forget that you are even there!!!

I did not drink, I could not eat, but I will **never forget** dancing with my father, friends, and Paul! It was worth every single dime!

Thank you so much; you not only have a life long fan, but a loyal friend!

Kisses and Hugs

I am sending you pictures!
